

# *tiny dancer*

Usually I spend quality time  
calculating how to actually  
slide oversize designs  
through a narrow doorway.

So it was a relief to have  
the reverse problem:  
this next piece was  
so small I had to  
use tweezers.

Bird's eye view, looking down:

*a handful of seashells*

are stacked up

in a

haphazard

zigzag

tower.

*A delicate*

*balance.*

Each shell

holds a

single flower

or two,

reclining

in a tiny

pool

of water.

*Caution: fragile.*
